

HOSPICE ATLANTA

VISITING NURSE HEALTH SYSTEM

Visiting Nurse Health System has been caring for the Atlanta community since 1948. We are Georgia's largest nonprofit provider of home healthcare, aging services, and hospice care to adult and pediatric patients. The mission of our 700 employees and 200 volunteers is to improve the lives of nearly 6,000 patients and their families we serve each day throughout metro Atlanta's 26 counties, in their homes and at the Andrew and Eula Carlos Hospice Atlanta Center in Brookhaven.

Founded in 1975 as Georgia's first hospice provider, Hospice Atlanta's team of nurses, therapists, social workers, home health aides, chaplains and volunteers provide high-quality, compassionate care that helps patients with life-limiting illnesses and their families live as fully as possible during this difficult time. We provide physical, emotional and spiritual care aimed at giving patients and their loved ones comfort and dignity in life's final stage. The Andrew and Eula Carlos Hospice Atlanta Center, opened in 1996, was designed to keep families together in a place of comfort while being cared for by a compassionate, professional staff. Surrounded by peaceful gardens and fountains, the Center also has a library, chapel, family kitchen, children's play room and comfortable living rooms where family and friends can eat together and visit. CELEBRATING *70* YEARS
OF VISITING NURSE,
FEATURING SPECIAL GUEST, THE HONORABLE

Joseph Biden, Jr.
47TH VICE PRESIDENT OF THE UNITED STATES

HOSPICE ATLANTA

VISITING NURSE HEALTH SYSTEM

This year Visiting Nurse Health System | Hospice Atlanta celebrates a gratifying milestone—our 70th year of Bringing Healthcare Home. As always, we are grateful to the families who invite us in to care for their loved ones and to share in their recovery, rehabilitation, and end of life journeys. Because of friends like you, we are able to reach into the community to educate others about promising approaches to healthcare today, and tomorrow.

The Honorable Joseph Biden, Jr. has agreed to speak at a very special event celebration visit on behalf of Visiting Nurse | Hospice Atlanta. Over the past two years, Vice President Biden has spoken, eloquently and authentically, about the death of his oldest son Beau and the impact of his loss on the Biden family.

Today, he is fighting the good fight against the disease that so personally afflicted his family—cancer. The Biden Cancer Initiative is an extension of the work the Vice President began while in the White House. His life-long commitment to service continues with a compassionate mission to accelerate cancer research, prevention, and diagnosis while reducing disparities in care and cancer outcomes.

Please mark your calendar for this very special event. Feel free to contact me at 404.615.6110 or Dabney Hollis, VP of Advancement & Communications at 404.215.6011 or dabney.hollis@vnhs.org.

Best Regards,
