

Visiting Nurse Health System Physician Portal

Dear Physician Partner,

Visiting Nurse Health System (VNHS) has implemented a new web-based Physician Portal to facilitate electronic signing of documents for your home health and hospice patients. We invite you to explore our Physician Portal as a safe and secure alternative to reduce the time and costs associated with the review and transmission of paper documents. In addition to a primary account created for your physician staff, office staff members can also have a secondary account created to facilitate the review and processing of orders. If your office is interested in signing up for the Physician Portal, **please complete all portions of the form below** and fax the completed form to **404.215.6005**. You may also speak with a representative of our Physician Support Department at **404.589.7187** to learn more about our Physician Portal.
