CAMP STARS INTOWN

Camp STARS InTown Sharing Together As Real Support

Visiting Nurse Health System | Hospice Atlanta are pleased to announce our first Camp STARS InTown, a one-day workshop where bereaved children and adults gather to participate in a variety of activities to help foster healthy grieving.

Hospice Atlanta understands that death is an integral part of life. When someone dies, people grieve and may struggle to cope with life without their loved one. Camp STARS InTown is designed to help people understand that they are not alone and that their feelings of loss are normal. We will provide a safe environment for children and adults to be able to share their feelings, to meet others in similar situations, and to learn how to grieve in an emotionally healthy way.

Camp STARS InTown activities will be led by counselors, social workers, chaplains, community volunteers, and other bereavement specialists. Activities will include:

- Art projects
- Adult group support according to specific loss
- Children group support according to their age
- Team building activities

The workshop will be held on Saturday, March 16th, 2019 from 8:00am-5:00pm at The Cathedral of St. Philip located at 2744 Peachtree Rd NW in Atlanta, Georgia. A continental breakfast and lunch will be provided. Babysitting for children 2 and under will be available.

For almost 25 years, our Camp STARS bereavement camps have been supporting children and adults who have experienced the loss of a loved one by death. Camp STARS InTown is part of Visiting Nurse Health System | Hospice Atlanta community outreach.

ABOUT US

Founded in 1948, Visiting Nurse Health System is a **nonprofit home healthcare organization**, serving people in 28 counties throughout greater Atlanta. Visiting Nurse | Hospice Atlanta serves pediatric and adult hospice patients in their homes. In addition to home healthcare, private home care and hospice services, Visiting Nurse offers long-term care at home with programs such as Community Care Service Program (CCSP), Service Options Using Resources in a Community Environment (SOURCE) and Home and Community Based Services (HCBS), providing specialized services to the Atlanta community.

Every year, we provide approximately **\$3 million in charity care** to the greater Atlanta community. We rely on the thoughtful donations of individuals, area foundations, and partner organizations. This allows us to serve hundreds of patients who lack the ability to pay for home healthcare and hospice.

As a leader in the field and one of the most progressive home healthcare and hospice organizations in the industry, Visiting Nurse Health System provides **constant cost-effective care with the utmost compassion**. We're committed to providing care focused on helping our patients remain as independent as possible. Equally important, we have a commitment to the communities we serve, and to the extent we have resources available, to providing quality care to all who need it.
